Junior Business Analyst | Bilingual FR/EN

PROFESSIONAL PROFILE

Junior business analyst with a five-year degree in International Economic Relations and six years of experience in research, quality review, customer operations, and analytical writing. I help teams structure requirements and data, analyze problems and processes, define indicators, and turn findings into clear recommendations for decision-making.

Business Analysis: Requirements Gathering and Analysis · Business Process Analysis · Process Mapping and Modeling (BPMN, Microsoft Visio) · As-Is / To-Be Process Analysis · Gap Analysis · KPI Analysis · Root Cause Analysis (RCA) · Process Improvement and Optimization · Process Documentation · Stakeholder Management · Competitive Analysis · SWOT Analysis · Business Activity Modeling (BAM) · Data Flow Diagrams (DFD) · Entity Relationship Diagrams (ERD) · Decision Trees · RACI Matrix · Lean and Six Sigma Methodologies

Tools: Excel · Power BI (in progress) · Visio · Miro · Claude · Word · PowerPoint · Outlook · Figma · Uizard · Visily

Languages: French (B2/C1, Government of Québec Francization certificate) · English (fluent)

EDUCATION

Specialist Degree (Master's equivalent, 5 years) | V. N. Karazin Kharkiv National University | 2012-2017 | Ukraine — International Economic Relations: macroeconomics, international trade, statistical analysis, research, and analytical writing.

DEP in Secretarial Studies (RAC / Prior Learning Assessment, in progress) | Québec | April 2026 - present — Assessment of prior learning in business communication, document management, office operations, and coordination.

CERTIFICATIONS & CONTINUING EDUCATION

Business Analyst Professional Certificate (in progress) | Microsoft | June 2026 - present — Requirements, stakeholder needs, process modelling, data models, and SDLC concepts applied through practical exercises.

Data and Business Process Modeling with Microsoft Visio | Microsoft | July 2026 — As-Is/To-Be analysis, BPMN, BAM, and data-flow diagrams used to identify bottlenecks and propose process improvements.

Data for Business Analysts Using Excel | Microsoft | July 2026 — Data cleaning, formulas, PivotTables, KPI reporting, and communication of performance and trends to decision-makers.

Generative AI for UI/UX Design Specialization | IBM | February 2026 - May 2026 — AI-assisted research, rapid prototyping, usability testing, and conversational UX.

UX Design Certificate | Google | December 2023 - June 2024 — User research, journey mapping, wireframing, prototyping, and usability testing.

BUSINESS ANALYSIS PROJECTS

Project 1 - Order-Fulfillment Process Modelling and Improvement | July 2026 — Mapped the current process in Visio using BAM and BPMN, identified bottlenecks and automation opportunities, and defined a future-state process and action plan to improve methods, systems, and procedures.

Project 2 - Sales Performance Dashboard | July 2026 — Cleaned and structured transaction data, automated calculations, analyzed performance and trends, and created an interactive Excel dashboard with KPIs for management.

Project 3 - Root-Cause Analysis of an eCommerce Sales Decline | June 2026 — Combined transaction and customer-complaint data to define the problem and its causes, evaluated checkout friction, and recommended a data-supported action plan to improve purchase completion.

PROFESSIONAL EXPERIENCE

Merchandiser and Team Member

Costco Wholesale | July 2023 - present | Sherbrooke, QC

- Maintain an error rate below 1% while processing 80-100 units per hour, supporting accurate and reliable daily operations.
- Communicate daily in French and English with customers and colleagues to clarify needs and resolve routine issues.
- Selected for a 10-day cross-location assignment during a corporate visit based on consistent performance.

Writing Feedback Specialist

Studiosity | February 2025 - June 2025 | Remote | Five-month contract

- Reviewed 50-80 papers per week against structured criteria; delivered 100% on time with no compliance escalations.
- Identified recurring patterns across 300+ papers and converted them into clear, actionable feedback.

Economic Research Writer

ASAP Consulting | July 2022 - December 2022 | Remote | Six-month contract

- Verified evidence from academic, government, and financial sources and adapted findings into detailed reports or decision-ready summaries.
- Delivered 100% of projects on time with no client complaints.

Independent Academic Writer and Editor

Writer's Club | July 2018 - February 2022 | Remote

- Reviewed and validated 900+ papers across multiple citation standards, with fewer than 1% requiring revision.
- Managed 8-10 concurrent client relationships, clarifying requirements and adapting deliverables based on feedback.
- Mentored 3-4 junior writers on quality standards, reducing errors across the team.

Customer Experience Coordinator

Optic City | March 2018 - May 2018 | Ukraine

- Processed 200-300 customer files per week using structured criteria.
- Created five phone and email templates adopted by the team, improving consistency across customer communications.
- Identified recurring service issues and proposed procedure changes that reduced resolution time.

Translator and Research Coordinator

Luven (Startup) | September 2017 - February 2018 | Ukraine

- Coordinated an eight-person multilingual team and delivered the project two months ahead of schedule.
- Created a shared style guide that standardized terminology and reduced review cycles.
